

First Install

To install BACset you have to unzip the file “BACset_X_YZ - Setup.zip” and run “InstallBACset.exe”.

Upgrade from previous versions

To upgrade the BACset version from any previous version, you shall unzip the file “BACset_x_y.zip” and copy the file called “bacset.exe” into the folder in your PC that contains the old software release (usually “c:\Program Files\Carel\BACset\”) eventually overwriting the old version.

Compatibility Table pCOWeb (PCO1000WB0)

Firmware Release	is compatible with	BACset version
A1.2.7 B1.1.5		<=v1.02
A1.2.8 B1.1.5		<=v1.04
A1.3.0 B1.2.1		<=v1.07
A1.3.1 B1.2.1		<=v1.07
A1.3.3 B1.2.1		<=v1.12
A1.3.4 B1.2.1		<=v1.12
A1.3.5 B1.2.1		<=v2.00
A1.4.2 B1.2.1		<=v2.11

Compatibility Table pCOnet (PCO1000BA0)

Firmware Release	is compatible with	BACset version
A485-1.0.0 B485-1.0.0		<=v1.02
A485-1.1.0 B485-1.0.2		<=v1.06
A485-1.1.1 B485-1.0.2		<=v1.07
A485-1.1.2 B485-1.0.2		<=v1.07
A485-1.1.3 B485-1.0.2		<=v1.10
A485-1.1.4 B485-1.0.2		<=v1.12
A485-1.1.5 B485-1.0.2		<=v1.12
A485-1.1.6 B485-1.0.2		<=v1.12
A485-1.1.7 B485-1.0.2		<=v1.12

Older BACset releases are always compatible with newer pCOnet firmware, BACset v1.02 is able to communicate with A1.1.7-B1.0.2 and obviously it will not be able to configure and to use new pCOnets’ features.

Contact Carel for BACset old versions at pcoweb@carel.com
